## QUALIFICATIONS

Leadership / Requirements Analysis / Project Management / Communication  
Problem Solver / Client Service / Product Knowledge / Process Improvement  
**React | Vue | Node | React Native | Angular 2+ | UI/UX Design | SQL | Agile**

## EXPERIENCE

**Instructional Specialist**, *EdX-2U Bootcamps*

Jan 2023 - July 2023

- Working as instructor for 6-month full stack coding bootcamp until July, presenting curriculum from foundational HTML/CSS all the way to completing a project in React/Node

**Senior Consultant**, *Accenture Inc.*

Sep 2020 - Present

- Delivered release on a high stakes govt project with CMHC as core team member. Owned and built out 5+ features, such as Claims, Arrears, Obligations, Accesses and Delegations.
- Operated as the developer lead for the pod, trained 4 offshore junior developers and ran the demos. Project was built using React, with focus on good development and design.

**Mobile Developer**, *Nexalogy Inc.*

Mar 2022 - May 2022

- Built 2 separate interfaces to a React Native mobile app for Medi-Call (one for patients and one for doctors) to facilitate house visits from physicians to patients for emergencies.

**Frontend Developer**, *Pethealth Inc.*

Oct 2020 - Nov 2021

- Developed multiple marketing pages in HTML/CSS for the 24PetWatch website used in various social media campaigns. Built an entire trial membership flow (based on the DNN platform) geared towards new owners who adopted pets from shelters in North America.

**Software Consultant**, *Aquent Dev6*

Mar 2019 - Jul 2020

- Worked with multiple clients on projects built in Angular/React, gathered story requirements and provided expertise on application designs and development processes.

## EDUCATION

**Bachelor of Mathematics**, *University of Waterloo*

Sep 2011 - Aug 2020

- Relevant Courses: Algorithm Design, Data Abstraction, Linear Algebra, Statistics, Mgmt Info Systems, Logic and Computation. Took hiatus around 2015-2019 for work experience.

**Certification Programs**, *University of Toronto*

Jan 2016 - Apr 2018

- Completed courses in Project Management (2017) and Business Analysis (2018), helping to better understand requirements gathering and improve stakeholder communications.
